Notably, the press release does not share a contact at the Sierra Club who may be reached. I wonder if Ms. Raczkowski is willing to share the written endorsement and their contact?

**CYBERSECURITY WARNING:** This email is sent from outside of Costello, Cooney & Fearon.

**DO NOT** click on links or open attachments or call unless you know the sender.

This email will really get you twisted. I wonder how much power they would produce on a day like today, being buried under three feet of snow in Fenner. Also did the Sierra club really look at the wetlands and how many acres of trees being cut I highly doubt it.
